THONANGI MOHAN KRISHNA REDDY

Bengaluru • +91-7989686037 • mohankrishnareddy7@gmail.com • LinkedIn • GIT

Results-driven Cybersecurity Analyst with ~4 years of experience specializing in Security Operations Center (SOC) engineering, threat hunting, and SIEM/SOAR optimization across multi-tenant environments. Proven expertise in developing detection rules, fine-tuning telemetry to eliminate alert fatigue, and automating security workflows via Python, KQL, and SPL across Splunk, Microsoft Sentinel, and Palo Alto XSIAM. Recognized for engineering reporting frameworks that reduced manual effort by 90% and scaling incident response automation. Eager to bring a detection-as-code and product-centric mindset to a dynamic security team.

KEY SKILLS & CYBER KNOWLEDGE AREAS

- **Detection & Incident Response:** Threat Hunting, IOC Correlation, Use-Case Development, Alert Fine-Tuning, MITRE ATT&CK Framework, Dynamic Malware Analysis
- **SIEM & Log Management:** Splunk Enterprise Security, Azure Sentinel, Palo Alto XSIAM, Q-Radar, Forti-SIEM
- **SOAR & Automation:** Azure Sentinel Automation Rules, Google Chronicle SOAR, Python Scripting, REST APIs
- **Endpoint & Cloud Security**: Microsoft Defender for Endpoint, MCAS, Sentinel One, Microsoft Entra ID, Azure Security
- **Tools & Frameworks:** ServiceNow, Proofpoint, ANY.RUN, Hybrid Analysis, VirusTotal, Git, Splunk SPL, Kusto Query Language (KQL)
- **Governance & Standards:** NIST, ISO 27001, GDPR, HIPAA, PCI DSS

CERTIFICATIONS

- Microsoft Certified Security Operations Analyst **(SC-200)**
- Google Certified Professional Security Operations Engineer **(Google PSOE)**
- Microsoft Certified: Security, Compliance, and Identity Fundamentals **(SC- 900)**
- Microsoft Certified: Azure Fundamentals **(AZ-900)**
- Google Cloud Certified: Cloud Digital Leader
- Pega Certified Senior System Architect & System Architect
- CompTIA Cybersecurity Analyst CySA+ (Completion by Q4,2026)

PROFESSIONAL EXPERIENCE

Cloud4C (Part of Capgemini), Hyderabad, IND **Aug 2026 – Present**

Senior Engineer

- Delivered managed detection and response (MDR) operations and security engineering support for 1,200+ enterprise clients across retail, cloud storage, and identity domains using Sentinel, Sentinel One, Google Chronicle SecOps, Microsoft Sentinel, Forti-SIEM and Q-Radar.
- Designed and implemented custom detection use-cases and fine-tuned baseline rules for high-priority onboarding accounts to mitigate noisy false positives.
- Authored comprehensive technical runbooks and tip documents detailing alert parsing logic, investigation paths, and triage playbooks to accelerate L1/L2 onboarding.
- Acted as Shift Lead, coordinating cross-functional response workflows and ensuring strict adherence to critical incident SLAs across high-scale alert streams.

Accenture, Bengaluru, IND **Dec 2022 – Aug 2026**

Security Delivery Analyst

- Spearheaded managed security monitoring for 7 distinct enterprise client accounts using Microsoft Sentinel, Splunk, and Palo Alto XSIAM, consistently maintaining a 99% SLA for Tier 1/2 acknowledgements.
- Engineered automated operational dashboards in ServiceNow using custom reporting hooks, reducing manual report generation time from 3 hours to 15 minutes (90% efficiency gain).
- Architected a targeted phishing reduction initiative via Proofpoint, blocking malicious sender IPs/domains and driving daily phishing alert volumes down from ~400 to under 50.
- Conducted dynamic malware analysis of malicious downloads using ANY.RUN; extracted high-fidelity Indicators of Compromise (IOCs) and translated behavioral TTPs into custom threat detection rules from scratch.
- Developed, tested, and deployed SIEM detection use-cases, suppression rules, and behavioral analytics focusing on zero-day indicators and emerging IOAs (Indicators of Attack).

- Mentored a sub-team of 12 junior analysts, conducting advanced KQL training sessions, reviewing complex incident logs, and establishing rigorous auditing workflows.
- Authored 10+ standard operating procedures (SOPs) and incident playbooks covering insider threats, unauthorized access, and credential privilege escalation.

ACHIEVEMENTS

- **Top Performer, Immersive Labs - Intermediate SOC Training** (Accenture): Achieved Top 10 ranking among ~900 participants (including Team Leads, L2s, and Associate Managers) by successfully completing over 500 hands-on labs focused on advanced threat detection, incident response simulations, and SIEM optimization.
- **Accenture ACE Awardee:** Was awarded the ACE Star Award by Accenture for exceptional performance delivered in collaboration with client, community and platform operations.
- **Home Lab Development**: Actively maintain a personal cybersecurity home lab for continuous learning, currently focusing on IoT security principles and Augmented Reality principles.

EDUCATION

Bachelor of Technology, Electronics and Communication Engineering
Raghu Engineering College, Visakhapatnam 2022

HOBBIES

Vibe-Coding, Art Design, Blogging
